Questions and Answers

1. Who will take care of the maintenance and repair? Like standard oil changes, air filters, greasing daily?

Answer: Preventative Maintenance such as grease, oil changes and air filters will be done with MoDOT. We do ask that the successful bidder provides the preventative maintenance schedules they prefer.

2. If something happens to the screener while MoDOT has it, who is responsible for the expense to fix it?

Answer: Repairs to the machine will be at the expense of the vendor.

3. Can this be moved with a regular 5th wheel truck? Or does it have to be moved with a MoDOT truck and pindle hitch?

Answer: The request for quotation states it needs to be movable with a MoDOT truck and pindle hitch. The only other option would be if the vendor is willing to move the machine for the price submitted, and then the vendor would have to have the required insurance.

4. Is there any particular rate of production you are wanting? Like 50 ton / hour?

Answer: Production estimates around 100 ton per hour.

5. Is there a brand that you are specking from?

Answer: No.
